About Bragança

Bragança is located in Trás-os-Montes, in Northeast Portugal, an attractive region due to the richness of its traditions, crafts, gastronomy, and landscape.

The landscape is dominated by plateaus and mountains, with deep and narrow valleys, marked by the Douro River valley and the valleys of its tributaries.

In this region, you can visit the Montesinho Natural Park, the Douro International Park, or the Azibo Dam Protected Landscape.

Visitors will not want to miss the opportunity to savor the region's gastronomic delights, especially the cured meats (alheira, butelo com cascas, salpicão, chouriça), the Mirandesa steak (posta mirandesa), the kid goat, among others.

In the city, there are several monuments and museums that you can visit. Don't miss a tour of the Castle, the Domus Municipalis, and various religious heritage monuments.
